

Mrs Jones' Class Activities

13th - 17th July

This week our work is entitled 'Here comes Summer!'

Here are the activities that you should complete this week. Email your work/photographs of your work (please use your Hwb Email account) to McBu-JoneA@hwbcymru.net. You can send them at the end of each day once they're completed or at the end of the week if it's easier.

Monday:

I once found a message in a bottle! Imagine being on a beach in your summer holidays, and finding a message in a bottle. Write an exciting adventure story based on your find.

Tuesday:

Maths Investigation

Here are your Heulfan Ices choices:

Flavours	Vanilla	Mint	Strawberry
Containers	Wafer	Biscuit	Tub
Additions	Flake	Sauce	Sprinkles

Using 1 flavour, 1 container and 1 addition each time, how many different combinations can be made?

Wednesday:

These summer ices are made up of crosses stitched onto canvas. Use squared paper to design some summer ices of your own. Each cross will be represented by one square of your paper. If someone you know has some canvas, have a go at stitching your design!

Thursday:

The sun produces ultraviolet radiation which affects numerous everyday items and can have harmful effects on our skin causing sunburn.

Investigate the effects of the sun on some everyday items.

Place some newspaper in direct sunlight and another in a dark cupboard;

Place a banana in direct sunlight and another in the shade, both outdoors;

Place some shapes, cut out of sugar paper in direct sunlight and place some similar shapes in a dark cupboard.

Predict what you think will happen to each item;

The sun's power cannot be seen. How has the sun's power changed your items?

Record your investigation in your own way.

Friday:

Find out how to keep yourself safe when you are out in the sun. Design a colourful informative poster to give others advice.

Other ideas:

A: Write a letter to a friend about a summer holiday memory.

B: Create some art work on a summer theme.

Keep reading, handwriting and practising your tables.

Join in with Joe Wicks' PE sessions every weekday at 9.00 on Youtube.

Remember to chat with family members about anything that's worrying you.

Stay safe everyone.
