

Numeracy Tasks – Foundation Phase

Choose any of the tasks below to keep yourself busy ...

Practice telling the time using a clock. You could draw some to help you practice, or you could make a clock from a paper plate.

Ask your adult helper to lend some coins to you. Can you name the different coins and make some different amount with them? Don't forget to give them back afterwards.

Find some different items in your house and measure them using a ruler or a tape, if you don't have a tape, you could measure with your hands.

Go around your house and find as many different shapes as you can. You could take a picture of them all or draw and name them.

Make a list of things that are taller or shorter than you around the house.

Can you create a pattern using different coloured shapes? It needs to be repeating.

Practice adding and taking away some numbers. As a challenge, ask an adult to write some questions down for you in columns.

Follow a recipe to bake a cake and weigh the different ingredients using a scales. You could send a picture of your final product to your teacher.

Write down all the number to 20 or if you want a challenge, 50. Colour all of the even numbers in one colour and colour the numbers in the 5 times table in another.

Play a game of snakes and ladders. If you don't have one, you could make one with some card and colours.

Write down all the different ways you can make 10 with 2 numbers. If you can do this, write down all the ways you can make 20 with 2 numbers.
