

Numeracy Tasks – Year 5 & 6

Choose any of the tasks below to keep yourself busy ...

36	736	2578	487	54
218	353	8723	9842	442
624	78	3843	73	536

Use the numbers in the blue box at the top of the page. Put them in a vertical addition and add them. Check your answers with an adult.

Choose some of the number above and round them to the nearest 10 and 100.

Choose some of the numbers above, then order them from smallest to largest.

Use the numbers in the blue box at the top of the page. Put them in a vertical subtraction, remember to put the bigger number on top. Remember you may need to take from next door.

Choose some of the numbers above (at least 5) Then work out:

Median (order from smallest to biggest)

Range (biggest number – smallest number)

Mean (add the numbers together then divide by how many numbers you have.)

Practise your times tables. You could log on to Hwb (ask your teacher for your email address if you are unsure) and play J2Blast which is in the "Just2Easy" section.

Choose some of the numbers from the box and multiply and divide them by 10 and 100.

How many different ways can you make £1, £5 & £10? Write them down on some paper. You might want to draw the coins to help you.

Collect some data from around your house, your toys, recycling etc, draw a bar graph to show the data. Write some sentences to tell me what you have found out from your graph.

Choose a number from the blue box, use the bus stop method to divide some of the numbers.

Choose 2 of the numbers from the box and multiply them using the long multiplication grid method or a different method if you know one.
