

## Home Learning – Friday 9<sup>th</sup> July

You have been amazing this week, you have all blown me away with your work and how you have just adapted to the change again, well done! Have a lovely weekend.

### English

Today you are going to pretend you are a safari keeper. I want you to write a 'day in the life' of the safari keeper.

Think about what they would do on a daily basis, times they would get up, jobs they would have to complete. If you need to you could do some research first to find out the job role of a safari keeper.

You could set it out a bit like a diary entry. Use pictures to illustrate your work.

### Maths

Lets do some investigation work.

Can you decide whether these statements are true or false? Show me any workings out.

**The sum of 3 odd numbers is odd.**

e.g  $3 + 5 + 1 = 9$  Odd

**Any odd number is double a number add 1.**

e.g.  $10 + 10 = 20$

$20 + 1 = 21$

## Science

Today we are going to look at seed dispersal and I want you to research the different ways in which seed dispersal can happen.

Find out as much information as you can including what type of seeds are dispersed in this way. Here are a couple of websites you may want to use to help you.

<https://www.bbc.co.uk/bitesize/clips/znvfb9q>

<https://www.bbc.co.uk/bitesize/topics/zxfrwmn/articles/z28dpbk>

You can set your work out in a way you find suitable.

Thank you for all your hard work. I am so impressed.

Mrs Wilkes
