

3/4D Home Learning
Friday 18th February 2022

Hello everyone,

Today we are going to be focusing on the topic Health and Hygiene.

Maths

We have been practising our times tables. We had looked at our 10 and our 5 and our 2 times tables. Today I would like you to have a go at practising your 10, 2, and 5 times tables.

<https://www.topmarks.co.uk/maths-games/hit-the-button>

Use this website that we use in class. To play it click on play the game, then click on times tables and select either the 2s, 5s or the 10s on the hit the answer side. What is your best score? Can you beat it?

English

Thinking about our topic health and hygiene. Having good friends help us to have a healthy lifestyle as it helps us with our mental health meaning it makes us feel good and happy.

Can you write at least five sentences about how you can be a good friend.

Remember to use capital letters, finger spaces and full stops.

Below are some words which could help you with your sentences.

Exercise is important for our health. Today I would like you to design a poster or a leaflet about why exercise is important. You could also include

- What different types of exercises there are?
- Where people go to exercise?
- What happens to our body when we exercise?

Send me photographs of your work or some photographs of the activities you get up to. I'd love to see them. My email address is gwilliamt14@hwbcymru.net. Also if you any problems or questions please feel free to email me. I am always happy to help.

Look forward to hearing from you!

I hope you have a lovely half term.

Miss Gwilliam
