

## Year 3&4 Home Learning

### Maths

I know how much you all love estimating in maths, so today we're doing just that! Ask a grown up for a kitchen scale and fill in the table below. Remember to pick up each object first to estimate how heavy it could be in grams, then write down the correct answer. How close will you get? You could even go outside and use snowballs, twigs and stones! Don't have a scale handy? Fill in the object and estimation columns and we can see if you're right when we come back to school!

Object	Estimation (g)	Weight (g)

### Science

Seeing as it's snowing, let's find out what animals always live in snow! Look online and draw a picture of a few animals in their polar habitat. Can you include some information about them such as what they eat, how they are adapted to live there and what kind of predators they have? You can use the website below to help you:

<https://kids.nationalgeographic.com/nature/habitats/article/>

## Snowman/Snow Sculpture Competition

Wrap up warm and get yourselves outside and start building children; you've got a competition to win! Build a snowman or snow sculpture of your choice (could be a cat, dinosaur or even yourself) and use resources outside and inside your home like twigs, stones, scarves etc. to make your sculpture as creative as you possibly can. There will be a little prize when we return for the winner!

We can't wait to see your amazing work! Remember to email photos of all three activities to:

[DaviesC1597@hwbcymru.net](mailto:DaviesC1597@hwbcymru.net)

(if you're in Miss C Davies' or Mrs Reay's class)

[DaviesR1890@hwbcymru.net](mailto:DaviesR1890@hwbcymru.net)

(if you're in Miss F Davies' & Mr Davies' class)

Keep warm and safe children, sending all our best wishes.
